

# Kyle Kinder

## About

For the past seventeen years I have been the Head Web Developer, Creative Director / IT and Operations Manager of Choice Engraving. And while I loved my work during that period, I am now looking to act on and expand my career expertise and goals in web development, programming, web design, and as a graphic artist.

I am currently seeking a position where my attention to detail, impeccable communication skills, robust programming, networking, business, information, and system skills can all serve to have a greater impact on both the work that I do and the self satisfaction of said work.
